

# Innovation

What does it really mean?

# Innovation

# Innovation – Unknown unknowns

---

- An event or occurrence that deviates beyond what is normally expected of a situation and that would be extremely difficult to predict.

The background of the slide is a grayscale photograph of three young children in a yoga class. They are all in a downward dog position on mats. The child on the left is a girl with curly hair, the middle one is a girl with a ponytail, and the one on the right is a boy. They are all looking down at their hands on the floor.

**1. Enhance Human Experience:** Buildings will shape human experience to be positive and restorative

**2. Respond to the Environment:** Buildings will respond to conventional external environmental factors

**3. Restore the Environment:** Buildings will revive the planet

**4. Resilient to the Environment:** Buildings and communities of buildings will be resilient to extreme environmental factors

**5. Common Language of Buildings:** The built environment will have a standardized dataset for all information that flows through it

04 MEP Cages

**6. A Generative Process:** A ubiquitous AEC primary building element shape grammar will define our world

Steel Frame 01

03 Partitions

02 Concrete Deck

**7. Aligned Incentives:** Redefine a future paradigm where a relational value system is the basis of compensation from the benefits created before 2030
